COOKIE POLICY

Effective Date: 9 September 2026 | Last Updated: 11 September 2026

1. What Are Cookies and Similar Technologies?

Cookies are small text files and similar technical identifiers that may be stored on your device when you visit a website. They help a website operate, remember preferences, measure usage and understand how visitors interact with its pages.

This Cookie Policy supplements the Privacy Notice of Zavod Medsintez and explains the cookies and similar technologies identified on triazavirin.global in the technical cookie scan dated 9 September 2026. For information about the processing of Personal Data and applicable privacy rights, please refer to the Privacy Notice.

Privacy Notice: https://triazavirin.global/upload/en/Privacy_Notice_Zavod_Medsintez.pdf

2. Categories of Cookies

Strictly Necessary / Technical — Cookies required for essential Website operation, administration and consent functionality. These may be used without consent because they are necessary for the Website to function.

Analytics — Yandex Metrica identifiers used to measure visits and visitor interaction. **Non-essential** — used only after consent.

Advertising / Targeting — Certain Yandex identifiers identified by the scan as advertising-related. These are disclosed separately and are not described as strictly necessary or analytics-only. **Non-essential** — used only after consent.

Functional — Cookies that remember certain settings or features. Where not strictly necessary, they are used only after consent.

Third-Party Service Cookies — Cookies set on third-party domains, including Google, in connection with services or functionality available on the Website. Where not strictly necessary, they are used only after consent.

3. Cookies Identified on the Website

The following list reflects the cookies identified in the technical scan provided by the Website developer on 9 September 2026. Cookies are grouped by domain and category for clarity. The scan did not provide retention periods for the individual cookies; therefore, no expiry period has been inferred or invented.

3.1 triazavirin.global — Website Cookies

Cookie	Category	Purpose	Retention
_ym_d	Analytics	Yandex Metrica — date of first visit	Not specified in scan
_ym_isad	Analytics	Yandex Metrica — checks for ad blockers	Not specified in scan
_ym_uid	Analytics	Yandex Metrica — unique user identifier	Not specified in scan
_ym_visorc	Analytics	Yandex Metrica — page visibility / Webvisor (session replay)	Not specified in scan
acs_3	Strictly Necessary / Technical	Website settings, hash and temporary timestamps	Not specified in scan
adrcid	Advertising / Targeting	Advertising identifier	Not specified in scan

adrdel	Advertising / Targeting	Removal of advertising data	Not specified in scan
BITRIX_SM_LOGIN	Strictly Necessary / Technical	Administrator login for the website administration area	Not specified in scan
BITRIX_SM_SOUND_LOGIN_PLAYED	Functional	Website sound setting	Not specified in scan
cookies-popup	Strictly Necessary / Technical	Records your cookie-consent choice	Not specified in scan
mdd	Strictly Necessary / Technical	Technical resource loading	Not specified in scan

Retention periods for Yandex Metrica cookies are defined by Yandex. According to Yandex's public documentation, identifiers such as _ym_uid and _ym_d are typically retained for up to 1 year, while _ym_visorc applies for the duration of the session. Exact current values should be confirmed with the Website developer or Yandex documentation.

3.2 .yandex.ru — Yandex Cookies

Cookie	Category	Purpose	Retention
_yasc	Analytics	Encrypted Yandex Metrica identifier	Not specified in scan
360-utm	Analytics	UTM traffic-source data	Not specified in scan
amcuid	Advertising / Targeting	Advertising identifier	Not specified in scan
bh	Technical	Browser parameters	Not specified in scan
cycada	Advertising / Targeting	Advertising identifier	Not specified in scan
gdpr	Consent / Technical	GDPR data-processing consent flag	Not specified in scan
i	Analytics	Encrypted analytics identifier	Not specified in scan
is_gdpr	Consent / Technical	Consent flag	Not specified in scan
is_gdpr_b	Consent / Technical	Encoded consent information	Not specified in scan
L	Advertising / Targeting	Advertising identifier	Not specified in scan
maps_session_id	Functional	Yandex Maps session	Not specified in scan
mdd	Technical	Technical parameter	Not specified in scan
yabs-dsp	Advertising / Targeting	Advertising / DSP identifier	Not specified in scan

3.3 .google.com — Google Cookies

Cookie	Category	Purpose	Retention
__Secure-1PAPISID	Third-Party Service	Authentication and personalisation	Not specified in scan
__Secure-1PSID	Third-Party Service	Secure session identifier	Not specified in scan

__Secure-1PSIDCC	Third-Party Service	Session verification	Not specified in scan
__Secure-1PSIDTS	Third-Party Service	Session timestamp	Not specified in scan
__Secure-3PAPISID	Third-Party Service	Authentication in a third-party context	Not specified in scan
__Secure-3PSID	Third-Party Service	Third-party session identifier	Not specified in scan
__Secure-3PSIDCC	Third-Party Service	Third-party session verification	Not specified in scan
__Secure-3PSIDTS	Third-Party Service	Third-party session timestamp	Not specified in scan
AEC	Third-Party Service	Protection against forged requests	Not specified in scan
APISID	Third-Party Service	Google API authentication	Not specified in scan
HSID	Third-Party Service	Protection against account compromise	Not specified in scan

For third-party cookies, retention periods and other cookie characteristics may be determined by the relevant provider. The Website does not infer or guarantee third-party retention periods where they were not established by the technical scan.

4. Yandex Metrica, Webvisor and Advertising Identifiers

The Website uses Yandex technologies for analytics. The scan identified Yandex Metrica-related identifiers, including _ym_d, _ym_isad, _ym_uid and _ym_visorc. The scan also identified advertising-related Yandex identifiers, including amcuid, cycada, L and yabs-dsp, as well as the advertising identifier adrcid on the Website domain.

Yandex Metrica includes **Webvisor (Session Replay)**, which allows us to review how visitors interact with Website pages. We configure Website forms so that the content entered into fields containing Personal Data or potentially sensitive information is **not recorded** by Webvisor.

Yandex Metrica, Webvisor and advertising-related identifiers are **non-essential** technologies and are activated only after the required consent has been obtained (see Section 7).

5. Google Technologies and Tag Management

The technical scan identified cookies on the .google.com domain. The scan describes these cookies as being associated with authentication, session management, personalisation, API authentication and security. The scan provided to us does not establish which specific Google product or Website feature causes each cookie to be set. This Policy therefore does not attribute these cookies to a specific Google service beyond the information established by the scan.

The Website uses **Google Tag Manager** to manage tags and technologies on the Website. Tags deployed through Google Tag Manager may set or trigger cookies described in this Policy. Where such cookies are non-essential, they are used only after consent.

6. Managing Cookies

You can manage cookies through your browser settings, including by blocking or deleting cookies. Blocking strictly necessary cookies may affect the operation of certain Website functions.

Non-essential cookies (analytics, advertising, session replay and other non-essential technologies) are set only after you provide consent through the Website's cookie banner. You can change or withdraw your consent at any time through the Website's cookie settings. Your consent choice is recorded by the cookies-popup cookie.

7. Consent and Non-Essential Technologies

Strictly necessary / technical cookies are used without consent because they are required for the Website to operate.

Analytics, advertising, session-replay and other non-essential cookies or similar technologies are activated only after the required consent has been obtained through the cookie banner, where consent is required by applicable law. You may reject non-essential technologies or withdraw a previously given consent at any time; rejecting or withdrawing consent does not affect the operation of strictly necessary cookies.

The current technical scan identifies advertising-related Yandex cookies. Accordingly, this Policy does not describe all cookies as strictly necessary or analytics-only.

8. Third-Party Providers

Yandex — Yandex Metrica analytics, Webvisor (session replay) and Yandex advertising-related technologies identified in the scan.

Google — Google-domain cookies identified in the scan, and Google Tag Manager used to manage Website tags; the specific Google product responsible for each cookie was not established by the scan.

Bitrix — the Website content-management system; Website administration and functional technologies identified through the Website-domain cookies.

9. International Processing

Cookies and similar technologies provided by third parties may result in information being processed outside the visitor's country of residence. Where applicable data protection law imposes requirements on such processing or international transfers, the relevant requirements apply.

For more information about how Zavod Medsintez processes Personal Data, including information concerning visitors in the European Economic Area, South Africa and the People's Republic of China, please refer to the Privacy Notice.

10. Complaints and Privacy Rights

Questions or requests concerning Personal Data processed through cookies may be submitted using the contact details provided in the Privacy Notice. Information about applicable privacy rights and supervisory authorities is also provided in the Privacy Notice.

11. Relationship with the Privacy Notice

Information collected through cookies and similar technologies may constitute Personal Data under applicable law. Processing of such information is also governed by our Privacy Notice.

12. Updates to This Cookie Policy

We may update this Cookie Policy when the Website, its analytics tools, advertising technologies, tag configuration or other technologies change. The current version will be published on the Website together with its effective date.
